

Festive Online Shopping

Choose carefully where you shop

Some of the emails or texts you receive about amazing offers may contain links to fake websites. If you're unsure, don't use the link.

Use a credit card for online payments

If you have a credit card – use it. If the worst happens, your credit card provider is obliged to help.

Only provide enough details to complete your purchase

You should only fill in the required details when making a purchase. If possible, don't create an account for the online store when making your payment.

Secure Your accounts

Double up on protecting your account security. In addition to having a strong password, 2-step verification gives you twice the protection.
